Sales Associate	Barry Johnstone	225

Always Dependable Service® (ADS) is pleased to announce that Lindsey Spratley is appointed consultant to Jim Wilson, President of ADS. Lindsey has many years experience in our industry having worked for Wheelabrator® for a total of 22 years. Prior to his retirement in 1997 Lindsey was General Manager of the Wheelabrator® Canadian OEM business. In his new capacity as a consultant Lindsey will play a significant role in the evolution of ADS from a company primarily engaged in the aftermarket and used equipment segments of our industry into a full line surface preparation solution provider.

This evolution will be accomplished by the expansion of the present Rep network, by increasing both engineering and technical sales capability and by expanding the current product offering.

In order to further the growth goals put in place by ADS management we are also pleased to announce that the company will be re-locating to a new facility which will provide significantly improved manufacturing capabilities. The move to the new facility will be completed by the end of December. Please plan to attend our open house which will be announced later this year. More details of the new facility will be released shortly.

In the interim please feel free to contact Lindsey at 905-628-0765 ext. 248 or Mobile 905-220-2099 to say hello or get reacquainted.

Contact ADS for all your equipment requirements. ADS has over 30 machines in various stages of rebuild for sale. ADS offers Worldwide shipping and full turnkey installation.

We Listen-We Perform-We Exceed Expectation-ADS Group since 1994
